- Machine Learning
- Hard Working
- Team Work

## LANGUAGES

- English
- Hindi
- Punjabi

## CERTIFICATION

- HTML bootcamp from Letsupgrade
- python bootcamp from letsupgrade
- React bootcamp from letsupgrade

## PROFILE

I am passionate about web development and machine learning. In machine learning, I like to make predictions based on previous data, and in web development, I like to make creative websites that can interact with users. I am also working on projects like customer sentiment analysis and personal portfolio website.

## PROJECTS

### Customer sentiment analysis

- We made this project in machine learning
- It was a team-based project
- We collected a dataset of sentiment analysis and made predictions from data
- My role was the data collection and its cleaning

### Personal Portfolio Website

- A personal portfolio website which shows my skills, projects, and a contact me page where people can contact me
- I made this in HTML, CSS, and JS
- It was my institution training project
- We can add more features using advanced technologies like React and a database for storing data
